

Purposes

The purposes of this Sevier County General Plan are to:

- **Meet the requirements of Utah Statutory Law in planning for the present and future needs of Sevier County residents and landowners;**
- **Promote educational, employment, and training opportunities for Sevier County residents;**
- **Plan for future population growth, development of lands, and to increase land values within Sevier County;**
- **Coordinate land development and management policies for Sevier County lands, particularly those which are proximate to incorporated communities;**
- **Identify and develop resources available to Sevier County which will provide opportunities for existing businesses and promote new businesses that will provide family sustaining jobs and build the County's tax base;**
- **Evaluate existing and proposed housing, human services, and infrastructure requirements in Sevier County including communications, electrical energy, culinary water distribution, roadways, solid waste disposal and waste water disposal systems;**
- **Preserve and protect the physical environment of Sevier County as a desirable setting for human activities; to make Sevier County more beautiful, functional, healthful, interesting and prosperous;**
- **Focus the desires of citizens, professional knowledge, and technical resources in effecting orderly, practical and reasonable growth within Sevier County.**
